EXPERIENCE

Student Special Group, Bannari Amman Institute of Technology
Member

Oct 2025 – Present
Sathyamangalam, TN

- Selected for a competitive student innovation group focused on real-world software development
- Developed backend services for institutional platforms using Node.js, PostgreSQL, and Supabase
- Designed normalized SQL schemas and REST APIs to support scalable academic workflows
- Mentored 50+ first-year students in JavaScript, backend fundamentals, and full-stack thinking
- Collaborated with faculty and peers to translate requirements into working production features

PROJECTS

BIT Meeting

Full-Stack Meeting Management System

🔗 GitHub Repository

- Built a role-based meeting management system for academic use cases
- Implemented agenda tracking, reusable templates, point forwarding, and status-based workflows
- Designed backend APIs and database models to support efficient meeting lifecycle management
- Focused on maintainability, modular design, and clean API contracts

BIT Connections

Academic & Industry Contact Platform

🔗 GitHub Repository

- Developed a full-stack web application to manage academic and industry contacts
- Implemented smart autocomplete, structured data entry, and multi-modal form flows
- Improved data accuracy and retrieval efficiency through optimized backend logic

EDUCATION

Bannari Amman Institute of Technology
B.E. Computer Science and Engineering

2024 – 2028
Sathyamangalam, Tamil Nadu

- CGPA: **9.05 / 10.0** (Till 3rd Semester)
- Strong foundation in data structures, algorithms, databases, and software engineering

SKILLS & CERTIFICATIONS

Languages: JavaScript, Python (Basic), Java (Basic), SQL

Frameworks & Tools: Node.js, React, Git, Supabase, PostgreSQL

Web: HTML, CSS, REST APIs

Certifications: WordPress Web Development, AWS Cloud Practitioner

Languages Spoken: English, Tamil
